

## COFFEE BREWING TIPS

### Is it hot in here? Or is it just the mug you're using?

Coffeehouses traditionally serve their coffee in paper mugs. And it's not just because they're inexpensive and easy to discard. The type of mug you brew into can drastically influence the temperature of your coffee. Take a look.

MUG TYPE	CERAMIC MUG			NINJA® MUG	PAPER MUG
MUG TEMP	Room Temp	Pre-warmed with hot water	Pre-warmed in microwave with milk	Room Temp	Room Temp
DRINKING TEMP	Hot 	Hotter 	Hotter 	Hotter 	Hottest 

#### WHY DOES THIS MATTER?

A cold ceramic mug will steal heat from the coffee

If the mug is already warm, it will not steal as much heat from the coffee

Just like your cold mug, cold milk steals heat from the coffee

The Ninja® double-walled mug is designed to retain initial coffee temp better than a ceramic mug

Unlike a ceramic mug, a paper mug does not steal substantial heat from the coffee

#### When you just can't wait for that first mug to be ready...

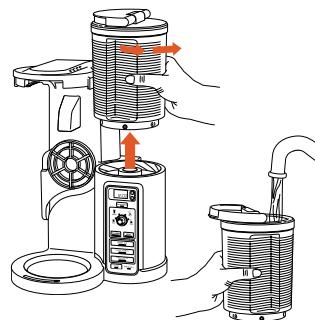

Simply close the Drip Stop to pause the brew cycle and pour your mug. Then re-open the Drip Stop to continue the brew. If you forget to re-open the Drip Stop, your Ninja Coffee Bar® will give you a friendly audible reminder.

Please make sure to read the enclosed Ninja® Owner's Guide prior to using your unit.

## QUICK START GUIDE

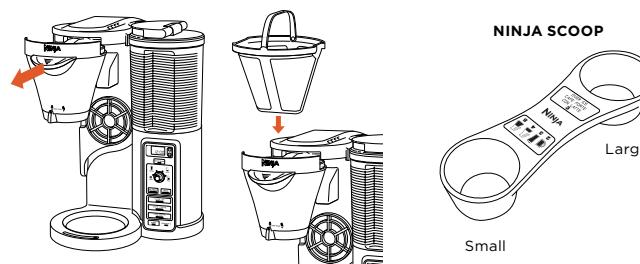

### 1 FILLING THE WATER RESERVOIR

- Twist the water reservoir anticlockwise and remove for easy filling.
- Fill with fresh, filtered water up to the carafe line, marked on the outside of the water reservoir. Auto-iQ® knows just the right amount of water to draw from it for the size and brew you select.
- Twist the water reservoir clockwise to lock into place.
- After filling the water reservoir we recommend you run the clean cycle. Set the dial to the carafe size and place the carafe under the brew basket. Then press the Clean button. We recommend you follow this clean process twice prior to use.

**Note:** There may be water left in the reservoir after a brew. This is normal since the water is automatically metered based on your brew selection.

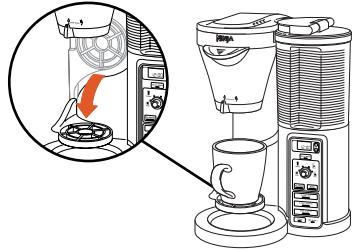

### 2 FILLING THE BREW BASKET

- Gently pull the brew basket towards you for easy filling.
- Insert permanent filter firmly into the brew basket.
- Using the provided Ninja scoop, scoop the appropriate amount of ground coffee for your drink size into the filter.

SMALL SCOOP	NINJA SCOOP
 MUG	2 SCOOPS
 TRAVEL MUG	3 SCOOPS
 HALF CARAFE	4 SCOOPS
 FULL CARAFE	8 SCOOPS
LARGE SCOOP	NINJA SCOOP
OVER ICE	3 SCOOPS
CAFE FORTE	3 SCOOPS
CON LATTE	3 SCOOPS

### 3 PLACING YOUR MUG, TRAVEL MUG, OR CARAFE

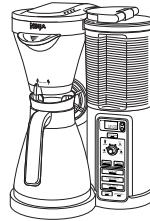

#### Brew a Single Mug

1. Remove the carafe and fold down the mug platform.
2. Place a mug on the mug platform.

#### Brew a Travel Mug

1. Remove the carafe.
2. Place a travel mug on the base of the brewer.

#### Brew a Carafe

1. Make sure the mug platform is folded up.
2. Set the carafe in place on the base of the brewer.

#### MAKING ICED COFFEE?

Fill your mug with ice before placing under the brew basket.

**IMPORTANT NOTICE:** Do not use glassware.

### 4 MAKING A COFFEE

#### NEED A GREAT COFFEE?

1. Start by selecting the size of coffee you want; mug, travel mug, half carafe or full carafe.
2. Then, select the strength of coffee you desire

Choose **Classic** for a smooth, balanced flavour from your favourite ground coffee

Choose **Rich** for a richer than classic, more intense flavour that really stands up to milk and and sweeteners,

### 5 MAKING A SPECIALITY DRINK

Our **Speciality drinks** are specially designed to give you a great tasting mug of coffee, like what you would get from a coffee shop.

1. Set the size to Mug and place a Mug on the mug platform.
2. Then, simply press one of the speciality brew options and enjoy!

Select **Over Ice** and surprise yourself with the satisfyingly refreshing taste of a smooth, over ice coffee.

Select **Cafe Forte** for the ultimate in richness and aroma, a long smooth coffee that is great for drinking black or white.

Select **Con Latte Recipes** for a smooth concentrated coffee that you can use to make all of your favourite, luxurious coffee shop drinks at home.

## HOW DO I KNOW IT'S WORKING ITS MAGIC?

Each brew has a pre-infusion cycle that helps unlock the flavours of your favourite coffee. The brew will begin, pause to pre-infuse, and will be quiet for a short period of time before resuming.

You will know your brew is working if the button light of the brew you selected is illuminated.

Make sure the Drip Stop is open before brewing.

Your brewer ensures your first mug of coffee is the perfect temperature. You may notice a short delay if the unit is warming up. You will know its working properly if the light of the brew you selected is illuminated.
